

# Meet the "Heart" of our School... The AES Office Staff!

AES is proud to introduce our "heart" working office staff. This dynamic trio is the "heart" and hub of all things, AES! They are here to serve our students and our community and they do so with ease and confidence. This exemplary team works together to ensure that our school office is well organized and a hub of vital resources for our families. They will welcome you with a smile, (and most often by name) and are eager to assist you in any way they can. Perhaps what we love best about our office staff is the heartwork they do every day to care for our students! Please make note of their area of speciality, so that you will know who can best serve you and your student.
