

Dear Families,

As principal of Alamos Elementary School, it is my privilege to welcome you to our extraordinary educational community. AES is home of the owls and together, we are excited for the year ahead! Get Ready. Get Set. BUILD!

“Let Us BUILD Them Up” continues to frame our “heart-working” vision for our new school year. As we open our doors on the heels of a pandemic, we aspire to BUILD our kids up so they are ready to catapult forward with courage and confidence! In the word BUILD, each letter represents an important building block of social, emotional, behavioral, and academic development. We want to BUILD up our students to be: Brave, Unique, Independent, Limitless, and Disciplined! At Alamos, Legos are our inspirational representation of BUILDing and connecting through play.

If you are brand new to our school this year....welcome to the nest! We are so glad that you are here and we know that you will come to love Alamos as much as we do. I think you will soon discover that AES is a great place to work, play, and of course, BUILD!

Alamos Elementary School is an asset-building school that prides itself on academic excellence while instilling in children a love for learning. **The FISH Philosophy** continues to inspire our students to embrace others, recognize and appreciate differences and be personally invested in our school community. If BUILDing each other up is our WHAT then certainly **The FISH Philosophy** is our HOW. AES is a “school” of **FISH**, and together we will...**BE THERE, PLAY, MAKE THEIR DAY**, and **CHOOSE OUR ATTITUDE!** Please take a moment to review the important information in our school handbook. It will be a useful blueprint for BUILDing and FISHing throughout the new school year!

At AES, we value our school families and their contribution to our educational community. Our commitment to providing an **OVER the TOP** service experience is the little bit of extra we do every day to make the ordinary, EXTRAORDINARY! Whether it's a joyful greeting as you walk into our front office, a prompt and courteous response to address concerns, or the stellar instruction provided by our teaching staff, the customer service at AES is just one of the many BUILDing blocks of our success! If you should have any questions, concerns, and/or suggestions, please do not hesitate to share them. I wish you and your family a delightful year!

Fondly,  
Mrs. Jenniffer Aynesworth
