

Temecula Valley Unified School District
LES School
School Site Council (SSC)

Minutes

Date: 11/14/2022

I. Call to order- The meeting held on 11/14/22 at 8:01 am was called to order at by Erin Nielsen.

Members present - Chad Beinschroth, Brittni Rowland, Kristin Beinschroth, Abby Diaquila, Tammy Iverson, Darlene Dormanen, Carrie Mizer, Chastity, Erin Nielsen

A. Approval of minutes- The minutes from 10/3 were approved 8 to 1 by all members. Brittni Rowland motioned to approve the minutes, and Abby Diaquila seconded the motion. The motion carried.

II. New Business: Agenda Items

A. Safety Plan Input - Erin Nielsen explained the safety plan and that we have worked with the District and Keenan, our insurance company, to create the document. It was given to the team last week since it is such a large document and they may have needed time to go over it prior to the meeting. The principal pulled it up to go over with the team. Asked if there are any questions or comments from the board. The principal explained that the governing board of the school site council has to approve it and the Temecula School Board will then approve it at the next board meeting in December. The main revisions we did as a site are done in section three and section four. These are the two sections that are site specific. Chad Beinschroth motioned to approve the school site safety plan, Darlene Dormanen seconded the motion and all approved the approval. Motion was carried.

B. LCAP Site Allocation (*if needed)

❖ **Data Analysis-** ___

❖ **Input-** ___

❖ *Prioritized List/Approval-* _____

C. **SPSA Addendum** - The Principal explained that there was an additional amount of funds allocated to the school and we need to think about how we want to spend this money to support students and we have to agree on the expenditures of the funds. Each new allocation in the plan was explained. We have the additional one time scheduled payment to our supplemental intervention specialist, an increase in supplies and manipulatives for the classroom, and the amount of teachers sent to the CUE conference. There is also a need for STEAM supplies, and flexible seating in the room to support students' engagement and usage of the classroom/STEAM lab. The final new allocation is to increase money spent in the area of the PBIS program in order to increase the support we have for students in need in the area of social emotional development. Tammy Iverson, asked about flexible seating being approved by the Fire Marshall. As long as we have approved school furniture and keep it out of walkways and away from the fire pulls.

The question was asked about money not spent, for example classroom supplies, if the money is not all spent do we reabsorb the money. This was explained that yes, we do unless it is over \$5,000 we need to get it approved.

If technology needs to be replaced, is it the school responsibility?

The district needs to and will replace the iPads that break or SMART boards because these things are district priority.

The principal clarified that anything over \$5,000 needs to be approved by the School Site Council Board. If there is money that is under \$5,000 we can easily move it around and reallocate it as we need to in order to cover small changes in amounts.

There was a question about whether the STEAM lab is voluntary and it was explained that it will be used as our robotics lab first that does have the robots and curriculum to go through first. Then we would like to have it as a "maker space" and have a sign up for teachers to use when they would like.

The motion to approve the addendum of the SPSA was made by Chad, Kristin seconded the motion and the motion carried by a unanimous vote.

III. **Input/ Feedback**

A. **ELAC-** at the ELAC meeting held on 11/9/2022 at LES at 9:30.

The parents were very pleased with the improvement of their childrens' literacy. The families wanted to see family engagement nights. They want to engage with their children and learn at school with them. The Literacy Specialist explained that the family nights that are set up are engaging the

families with their children and to engage them in not only literacy but cross curricular activities. They are hosting a family engagement night in December that is literacy and science based.

B. Other Committees- No other committees to share.

IV. General

A. Public Comment-None at this time.

V. Closing- *The next School Site Council Meeting will be held late Jan or early Feb 2023* .The meeting was closed by Erin Nielsen at 8:28 am.
